Joining details will be sent to those who register closer to the date

Data governance is getting a reputation for being complex and extremely challenging to implement, but it need not be. Learn from others experiences and do not repeat their mistakes. Join Nicola Askham, The Data Governance Coach, to hear about the many pitfalls that you could face, how you can deal with them and more importantly avoid altogether is if you take a structured approach to your data governance initiative.

Join this session to learn:

- What not to do in your data governance initiative
- What to do to overcome some of the common challenges
- Tips and best practice advice to make your data governance initiative successful

Nicola Askham, The Data Governance Coach, is an independent data management consultant. Her experience in coaching both regulatory and non-regulatory organisations to design and implement full data governance frameworks, is unique within the Data Governance field. Nicola's coaching approach enables organisations to self-manage the process beyond initial implementation. Nicola is a Director and Committee Member of DAMA UK, on the Expert Panel of Dataqualitypro.com and regularly writes and presents internationally on data governance best practice.
